Education

Bachelor of Technology in Computer Science & Information Technology

2020 – 2024

Mahatma Jyotiba Phule Rohilkhand University - Bareilly, Uttar Pradesh, India

Heliger Borden Education Centre (ISC) - 12th

2020

Percentage: 85.3/100

Experience

Flutter App Developer Intern @ [Coding Jr](#)

November 2021 – present

Coding Jr is an Ed-Tech startup that provides online learning platforms to institutions, schools, coachings ,etc. I'm working on various flutter projects, I learned GetX architecture, maintaining and debugging large scale flutter projects, also I'm learning new things every day.

Technical Writing Intern @ [GeeksforGeeks](#)

September 2021 – November 2021

GeeksforGeeks is the most popular portal for articles on various programming languages and frameworks. I contributed some articles on Dart and Flutter. I learned about architecture and unit testing in Flutter.

Projects

CoderStatus [GitHub](#) | [PlayStore](#)

8 Weeks (150+ hours)

A social app for competitive programmers to see each others ratings and ranking among friends.

- Built with **Flutter** using **Web Scraping**, **Firebase Auth** and **Firestore** as the Database
- Published on **Google PlayStore**
- Added beautiful vector animations made with **Rive Animations**

Musi Chat [GitHub](#)

under development

An app that allows people to chat in chat rooms with songs playing in background and members of the chat room can change and control song's playback via voting.

- Frontend built with **Flutter**
- Backend built with **Node-js**, **Express-js**, **Socket-io** and **MongoDB**

Achievements

- Global Rank **408 of 9500+** CodeChef Lunchtime (Div.3)
- HackerRank **5 star** in Problem Solving and C++.

Skills & Technologies

- **Languages:** Dart, C/C++, JavaScript/Typescript, Java
- **Frameworks:** Flutter, Node & Express, Socket-io, MongoDB, Firebase & Firestore
- **Tools:** Git & Github, VSCode, Linux, Figma, Rive
